

ENGINEERING TEST - PAGE 1

Hydraulic pump assembly HPA-42

Operating pressure: 1201 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

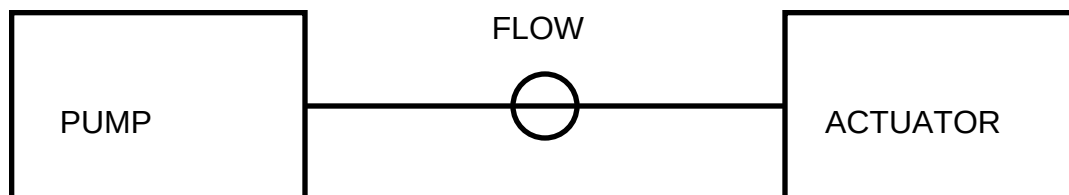

ENGINEERING TEST - PAGE 2

Hydraulic pump assembly HPA-42

Operating pressure: 1202 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

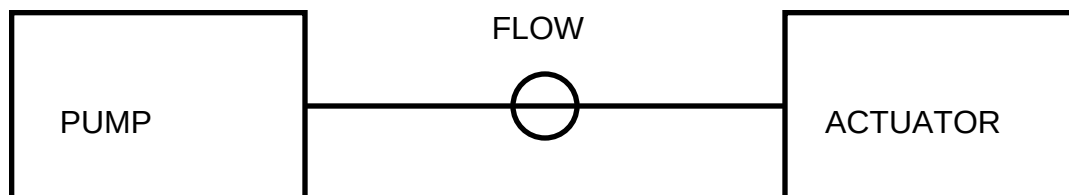

ENGINEERING TEST - PAGE 3

Hydraulic pump assembly HPA-42

Operating pressure: 1203 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

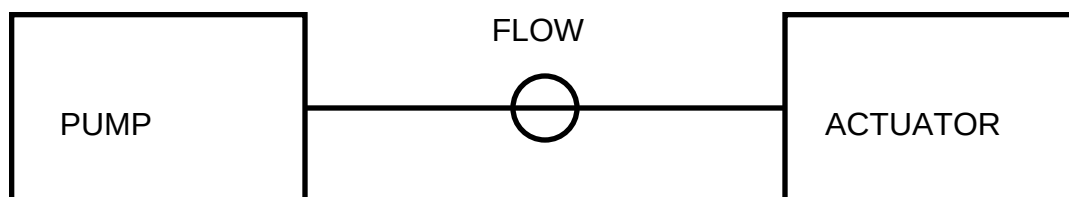

ENGINEERING TEST - PAGE 4

Hydraulic pump assembly HPA-42

Operating pressure: 1204 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

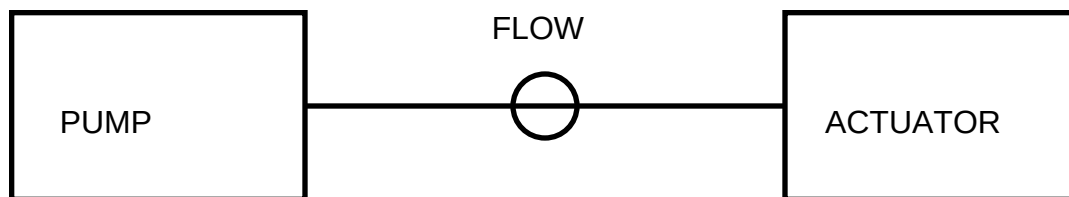

ENGINEERING TEST - PAGE 5

Hydraulic pump assembly HPA-42

Operating pressure: 1205 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

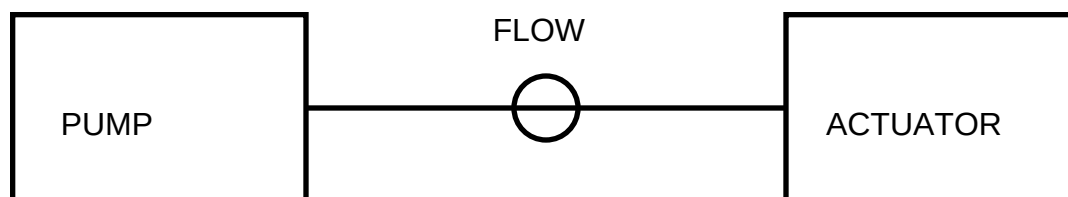

ENGINEERING TEST - PAGE 6

Hydraulic pump assembly HPA-42

Operating pressure: 1206 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

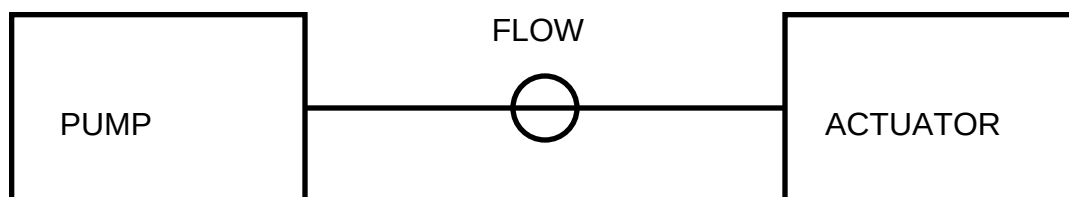

ENGINEERING TEST - PAGE 7

Hydraulic pump assembly HPA-42

Operating pressure: 1207 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

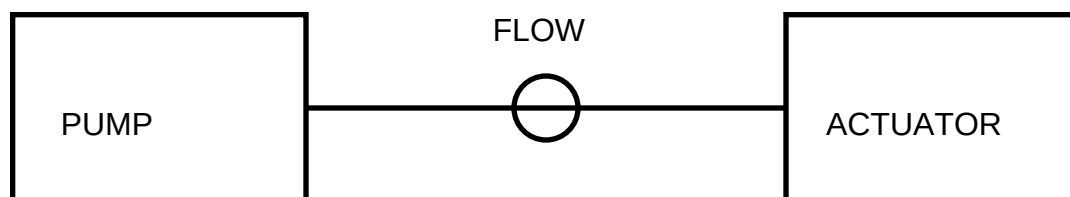

ENGINEERING TEST - PAGE 8

Hydraulic pump assembly HPA-42

Operating pressure: 1208 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

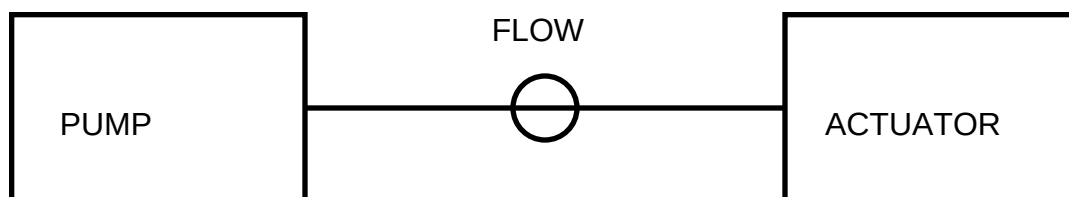

ENGINEERING TEST - PAGE 9

Hydraulic pump assembly HPA-42

Operating pressure: 1209 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

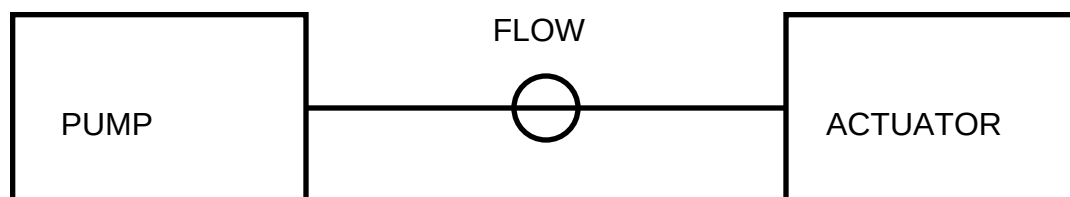

ENGINEERING TEST - PAGE 10

Hydraulic pump assembly HPA-42

Operating pressure: 1210 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

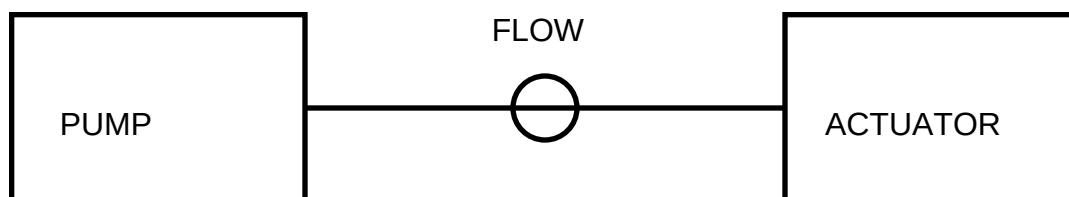

ENGINEERING TEST - PAGE 11

Hydraulic pump assembly HPA-42

Operating pressure: 1211 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

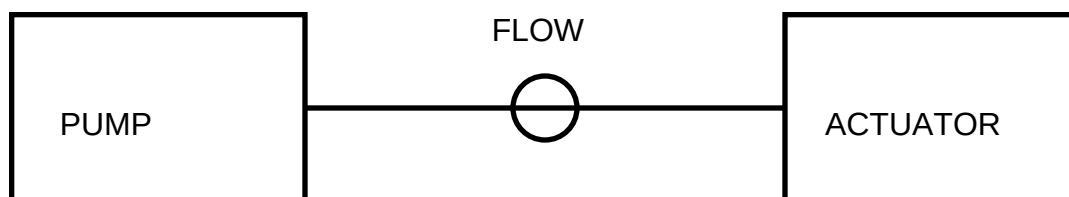

ENGINEERING TEST - PAGE 12

Hydraulic pump assembly HPA-42

Operating pressure: 1212 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

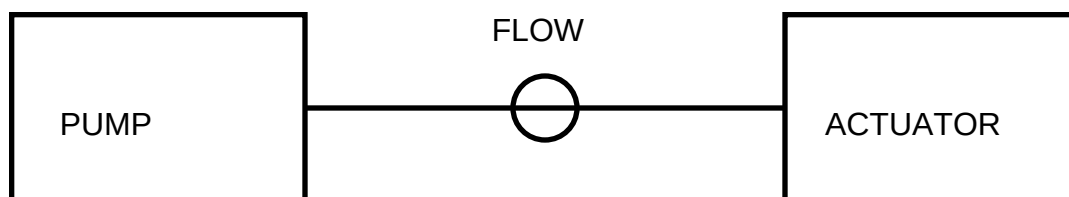

ENGINEERING TEST - PAGE 13

Hydraulic pump assembly HPA-42

Operating pressure: 1213 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

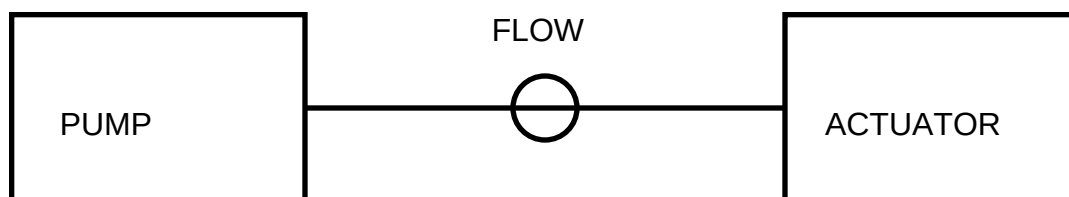

ENGINEERING TEST - PAGE 14

Hydraulic pump assembly HPA-42

Operating pressure: 1214 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

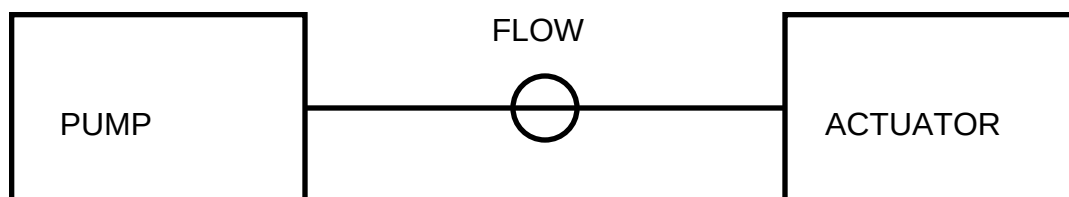

ENGINEERING TEST - PAGE 15

Hydraulic pump assembly HPA-42

Operating pressure: 1215 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

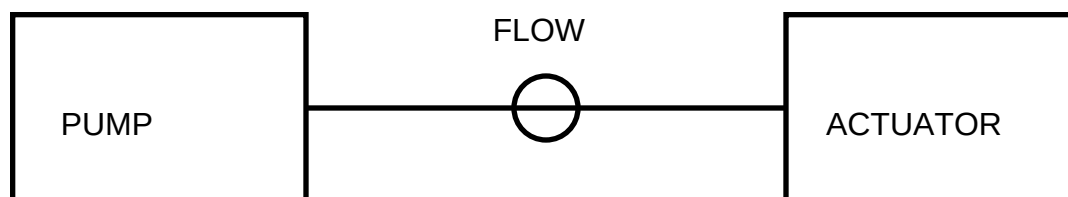

ENGINEERING TEST - PAGE 16

Hydraulic pump assembly HPA-42

Operating pressure: 1216 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

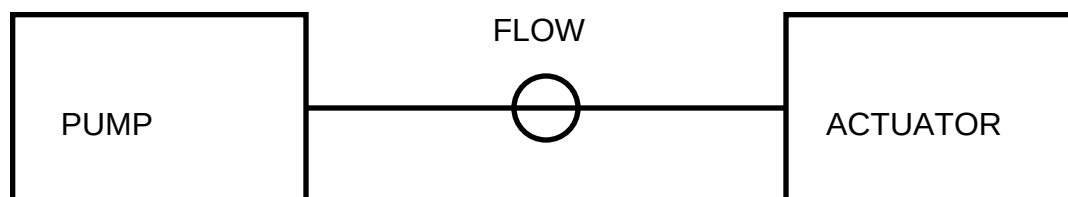

ENGINEERING TEST - PAGE 17

Hydraulic pump assembly HPA-42

Operating pressure: 1217 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

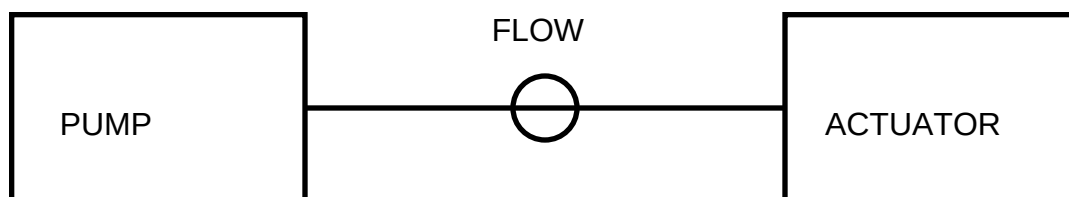

ENGINEERING TEST - PAGE 18

Hydraulic pump assembly HPA-42

Operating pressure: 1218 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

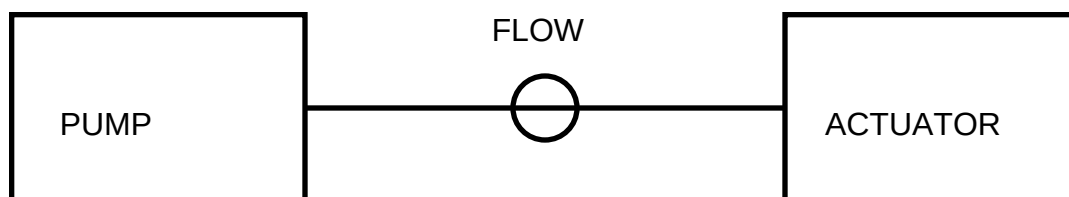

ENGINEERING TEST - PAGE 19

Hydraulic pump assembly HPA-42

Operating pressure: 1219 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.

ENGINEERING TEST - PAGE 20

Hydraulic pump assembly HPA-42

Operating pressure: 1220 PSI

Torque fitting A to 42 newton-metres.

Warning: isolate power before servicing the actuator.
